

WESTERLY

That the mail crane at the Westerly railroad station will never be a successful venture was again demonstrated the other day when a train picked up the pouch, cut it and scattered part of the contents about. It is not known what all the mail in the pouch contained, but it has been ascertained that one of the letters carried a check. After the accident it was picked up in a catch basin, returned to the local office and remailed to New York. Its intended destination, it took from Dec. 22 to Jan. 14 for the letter to arrive in the metropolis. In the meantime the sender, having been informed that the check had not been received in New York, cancelled the first check and sent another which arrived before the cancelled check made its appearance.

Several months ago a board of trade committee, appointed to obtain better train service for Westerly, complained of this service and made an attempt, with the co-operation of Postmaster Lenthall, to have the train which picks up the pouch from the crane stopped, but the efforts of the committee and of the postmaster have thus far been futile. While it was the opinion that the crane was better than nothing at all, it was agreed that the arrangement would never be satisfactory, which appears to be borne out partially at least by the difficulties it has already met with.

those that have been absent from the page maybe for months. Accept many thanks for the nice calendar.

Country Girl—For improving stove heating: add soapuds, coffee or kerosene. A few drops of turpentine is good, and alum I like the best, being more heat resisting.

If all cooks would boycott the sugar boycotters the price would come down. We can manage with less.

Drop Cakes—One-half cup of molasses, one-third of sugar, four tablespoons of cooking oil, one-third cup of peach sauce, spice and salt to taste. One-half cup of raisins, one teaspoon soda in one-half cup of water or milk, two and one-half cups flour. Drop from spoon and bake in a quick oven.

Plain Cake—Three-fourths cup of sugar, three tablespoons cooking oil, one-half teaspoon salt, vanilla and lemon, stir in egg yolk, one-half cup peach sauce (does not darken the cake like apple) one-half cup water, two teaspoons baking powder in two cups flour, add beaten white of egg last. Cocoa frosting keeps it moist.

All good wishes to The Editor and Corner family for the New Year.

WHAT WILL STOP FALLING

HAIR?
Sisters of The Social Corner: Every week I read your letters and helpful suggestions with interest, but so far I have not happened to see any reference to double which comes when one begins to comb out great wisps of hair daily.

My work is such that I have to wear a hat a good part of the day, and I suppose that the weight and heat of that, even in summer, must have a bad effect upon the roots of the hair.

I have tried all the old-fashioned remedies I know of, am careful about regular shampoo and massage treatment, yet find that my case does not improve much. Indeed, somebody told me the other day that too much shampooing might be bad for me, and that maybe it was as well to let the natural oil work its way to the roots of one's hair as to do too much wetting of the scalp. What do you think?

I used to have very thick hair (for rather light shade hair), but now it has grown thin and faded, besides coming out, as I have said.

Hoping that some experienced Sister can give me a help in this difficulty. Yours for The Corner's success,
ARABELLA.

P. S.: I will watch for replies to my letter, as I am afraid to try any beauty lotions or hair-wash, unless one which some of you may know is really what it pretends to be.

RAISED DOUGHNUTS RECIPE
WANTED.

Dear Sisters of The Social Corner: Can some of you give me a good rule for making raised doughnuts? In return, I am sending my own recipe for inexpensive doughnuts which my family like very much.

Molasses Doughnuts: One cup sour milk, one-half cup New Orleans molasses, one even teaspoon ginger, one teaspoon salt, one egg, about three cups flour, little nutmeg.

COUGHED NIGHT AND DAY.

John Vognue, Elberton, Ga., writes: "Last fall, when my neighbors were down with influenza, I took a severe cold and before I was aware of my condition I was down sick in bed. I coughed night and day and my throat was raw and sore. I got a bottle of Foley's Honey and Tar Compound and my condition began to improve and in a few days I was as well as ever. In my opinion Foley's is the best cough medicine made." Lee & Osgood Co.

BETTER THAN CALOMEL

Thousands Have Discovered
Dr. Edwards' Olive Tablets
are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "biliousness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 10c and 25c.
